

Lesson 3

Mailbox Management

Lesson objectives

- Describe Sterling B2B Integrator mailboxes
- Add and view data in a mailbox
- Extract data from a mailbox
- Describe the impact of mailbox in Sterling B2B Integrator performance

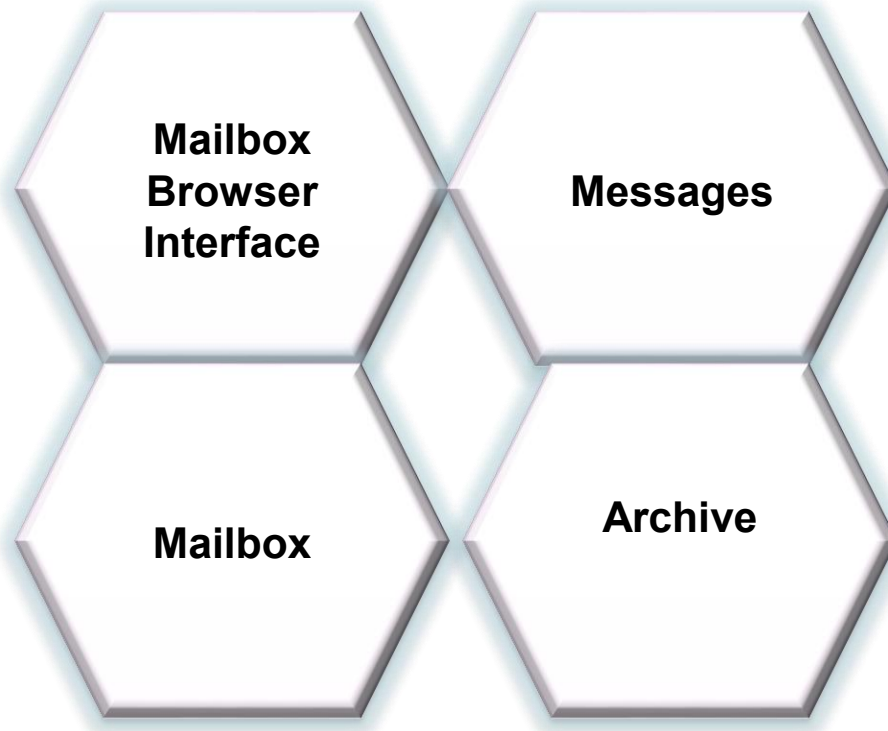

Introduction

The Sterling B2B Integrator Mailbox system is a secure business document repository with a store-and-forward communication infrastructure.

The Sterling B2B Integrator Mailbox adds to the business automation and facilities of Sterling B2B Integrator to conveniently build B2B electronic commerce communities.

Mailbox Components

The Sterling B2B Integrator Mailbox system that is managed by Sterling File Gateway includes the following components:

Mailbox Messages

- The Sterling B2B Integrator Mailbox system manages messages using routing rules and services.
- Routing rules are used to manage business document processing.
- Routing rules are used to schedule processing the business document and can be configured for automatic, scheduled, or manual processing of the message.
- Sterling File Gateway uses the mailbox system within the Sterling B2B Integrator application for its routing of messages.

Routing Rules

- Provide a powerful and easy-to-use mechanism for controlling document routing.
- Consist of two parts: a pattern to specify when the rule applies, and an action the rule must perform.

Routing rule evaluation mode

- Defines when the rule is evaluated.
- Rule evaluation modes:
 - Manual: The rule is evaluated when an administrator request evaluation (Test mode). The same batch of message ID is pulled each time the rule is started.
 - Scheduled: A schedule is established to evaluate rules. The message ID is pulled once upon success request.

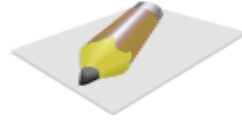

Impact of Mailboxes in Performance

To avoid performance issues, you need to perform the following important activities:

Disabling Duplicate Messages

**Using Mailbox Scheduled
Delete service**

The mailbox storage is not suitable for storing the large files as it can affect the performance of Sterling B2B Integrator.

Exercise

1. Locate mailbox

Completed lesson objectives

- Describe Sterling B2B Integrator mailboxes
- Add and view data in a mailbox
- Extract data from a mailbox
- Describe the impact of mailbox in Sterling B2B Integrator performance
